

Are you in Foreclosure on Independence Day? Foreclosure is Slavery!
Are you afraid and scared because you can't afford an attorney? Maybe we can all work together as a movement. Are you an African-American or other Racial Minority? Regardless of your race, or Because of your Race, do you feel the New Jersey Superior Courts have denied or infringed on or violated your rights to be heard, to give evidence, to due process of law, to protect your property, your ownership rights?

I have filed a Civil Rights Action, pro se, in the U.S. District Court in Newark, and I am looking for other people who may have been victimized in the same way: they do not hear my arguments or my evidence, both the Courts and the Opposing Counsel act like I haven't filed anything. They find me in Default when I've answered. But I keep fighting. Can you help me by giving me your story as an affidavit? I have a store at 879 Springfield Avenue in Irvington, NJ 07111. You can meet me there, but call me first at 201-407-0833, or e-mail unclesees@yahoo.com.

I have been fighting on my own for years, but I hear there's strength in numbers. IF we get enough response, maybe we can turn this into a Class Action and find an attorney to represent us as a Class. I'm sure I'm not alone.
