

EXTORTION

Delusional Demands,Threats, Accusations..... 10/26/2017

Reaching out to every business contact that Mr. Lincoln had access to as a legal consultant to the FCVFC as a means of extorting money for services unrelated to the work of the Foundation, Mr. Lincoln has continued on his slash and burn rampage.

Mr. Lincoln felt entitled to demand fees for his personal needs and indebtedness, pre dating any contact with the FCVFC (from his birth to his current dotage).

The Entitlement Disease seems to have spread from Mr. Lincoln to Ms. Meyer who is demanding a house and a car..... see attached; Ms. Cerigny trailer park dweller, now wishes a house and an ongoing career (singing/acting/modeling?) for her ten year old granddaughter.....

It appears that as the Wage and Labor Department have not acted rapidly enough to satisfy Mr. Lincoln and his posse the crew of three, have elected to sue the FCVFC and multiple parties associated that have no connection to the employment they allege related to the FCVFC. A Federal law suit was delivered on 10/27/17/.

Given our current experience with Mr. Lincoln and his posse, we are glad that our clients only want their children returned via the Juvenile, Family and Dependency courts.
