Ms. Saslovsky,

Please see attached documents filing complaints about your failure to protect the health, welfare and bests intersts of a minor child under your professional representation.

As a result of some combination of your arrogance for thinking yourself capable of psychodynamic and psychiatric assessment, your negligence and bias toward the mother of this child, we suggest that you remove yourself from this case immediately, before you are complicit with any further harm to this child. The child was recently hospitalized and remains seriously ill as a result of failure of proper supervision and oversight of visitation with the father of the child who is himself under court ordered supervision.

Jill Jones-Soderman
