

PREDATORS SEEKING POSSESSION OF THE FCVFC – 12/6/2017

Since the founding of the FCVFC in March 2008 assaults on the integrity of the FCVFC were generated by individuals who were never clients of the FCVFC, but those who attempted to extort money, through identity theft, use our name to file complaints against a judge, pressure us into filing money damages law suits based on false charges against individuals or institutions, have retaliated against us by placing anonymous complaints on the internet.

In our nearly ten years of going where others fear to tread we have never experienced an assault of the nature carried out most recently, by a legal consultant to the FCVFC. This highly educated, skilled individual, a PhD/JD from exemplary institutions, attempted to extort money by asserting bizarre false claims of partnership, and employment of his cohorts, who were never employed by the FCVFC. This individual has attempted to harass our clients and has threatened and harassed any professional colleagues associated with the FCVFC .

Texts messages in our possession indicate that this individual identifies himself with Hitler, his girl friend /cohort he identifies as Mrs. Hitler. He goes on in text messages to explain his intent toward Jill Jones-Soderman, Executive Director of the FCVFC.

We have chosen to publish some of the many text messages intercepted by this individual for, just as our clients are unfairly targeted and subject to malevolent attack, so are we!

The Board of the FCVFC in Defense of our Director.
