

THE FOUNDATION FOR THE CHILD VICTIMS OF THE FAMILY COURTS
PRESENTS

KIDNAPP ED

“ CUSTODIAL INTERVENTION” – BY STATUTE

When a parent removes children from the family home without warning or notice for a period of time that may vary by state, and that parent refuses to return the children, or allow the other parent contact or access to the children, by definition, this is an act of kidnapping.

When Juvenile, Dependency, Family Courts remove children by fraudulent means, transferring children from Protective Parents into the hands of a credibly accused abuser, the FCVFC defines this process as “Cash For Kids”.

The FCVFC is about to publish our story of “Ten Years of Speaking Truth To Power” - Custody Litigation in the Era of Richard Gardner/Junk Science – Parental Alienation – Depravity As The New Normal.....

We celebrate the release of Danielle Wolferts, the youngest of the three Wolferts sisters released as of April 10, 2018 from the State and Family Court supported custody of their sadistic pedophile father. The psychoanalytic and legal dimensions of

the strategy launched and then implemented to force release of the youngest sister is of unprecedented significance because of effectiveness of the strategy. This strategy was forged between the brilliant legal services of an attorney with moral fortitude and courage to deploy the force of Federal Statutes dealing with witness tampering and the psychoanalyst who possesses the acumen to communicate and translate into litigation the indepth understanding of a depraved criminal mind. Speaking Truth To Power via confrontation with Attorney Generals Offices/ criminal authorities who languished for years between ineptitude, cowardice and hypocrisy in the states of Kansas and Utah; truth finally prevailed.

In reviewing the past ten years since the inception of the work of the FCVFC, we grieve the losses of our broken children and decimated families, derive strength from what we have learned and hope from the knowledge gained by our successes. The vignettes of cases in process are meant to raise consciousness of the venal practices of those court actors engaged in the “cash for kids'industry, in “foster farming” engaged in by “Child Protective Services”.

The FCVFC seeks to inspire citizen activism, moral outrage and a call to action in every fraudulent custody litigation threatening transfer of vulnerable children into hands of abusers. Vulnerable subjects need an education into the process faced, knowledge of strategy and intervention and a plan to succeed – as offered by the FCVFC.
