

I have discovered a county in Georgia that is controlled by the KKK. The majority of the citizens are black but, the government officials are white and members of the KKK.

This county contains Stone Mountain, a monument to the confederacy and a place where the KKK was resurrected in 1917. They are planning a massive rally in April at Stone Mountain.

A group of courageous citizens (black and white) are planning to protest at the rally.

Will you help me support them?

In addition, we have discovered that the courts and the police are doing absolutely dispicable things to the people there. Black youth are being murdered at alarming rates.

Whites who stand up are being killed. In the family courts, the abusive parents are being awarded custody, in order to destroy the family and generate another generation of addicts and prison inmates.

See my blog entries and radio shows about Dr. Harris and her grand kids who have been murdered, sex trafficked (with the support of authorities). Help us gain media attention by posting and sharing this information.

We are doing regular radio shows on Sundays at 10 AM Pacific on this topic. Please share and submit CNN iReports.

Help us get worldwide media attention on this and disrupt the KKK rally being held in April.
