Subject: FOR YOUR REVIEW

Jill,

Salah has used it against me that I had spanked Islam on his butt with a brush, when he was around 4 years old.

[I know it was wrong and I corrected my discipline tactics to teach my kids the 'right and wrongs' of whatever they do, it is NOT my way to hit out of anger. I also, know that if I teach them that hitting is how to get someone to do what you want, then they will use this tactic in their own lives and with their own children oneday.]

Having said all of that, I am sending you this photo, because as I was saying Salah has time and time again, tried to say that I was a BAD MOTHER because I had hit my son on his butt with a brush.....look at this photo and see the terror & fear in Islam's face. Pay attention to where his eyes are focused.....he is staring at the brush in his father's hand, expecting that it will come flying towards him at any second. Tell me what 3 1/2 year old would sit so still, hands crossed, staring at his father's hand holding a brush the way he is unless there is something wrong??? NOT TO MENTION A CHILD WHO IS HYPER-ACTIVE!!

I hope you can see the fear in his face and notice where he is focusing his gaze.....troubling isn't it??

By the way I am also sending a copy of my divorce, for whatever it is worth. At a minimum, it will show that I was already divorced when I went to Court for the restraining order with Gloria in 2001. Even though we were VERY RECENTLY divorced salah still didn't keep his distance! As a Muslim this was an extreme violation of the male/female separation rules of our religion. Not to mention that as an arab/egyptian this kind of behavior was unheard of---amongst non-married adults of the opposite sex---especially ones who were previously married!!

Please respond when you see this email.

---Danielle

DOCTOR,

This is the letter
Salah showed Dasher &
Graber presented in ORDER
on 7-24-01, from Summer '99,
Why did he sit on this info.
if his concern was so genuine &
founded? Why'd he keep this letter
all this time, too? Unless it was
to hold onto, until he needed it? Not
for concern, help, etc.
